

REQUIREMENT

Customer requested a configuration around the Micro ATX standard with active cooling and integration of dual-slot PCI card (RS-232) and 2 hard disk drives.

CHALLENGE

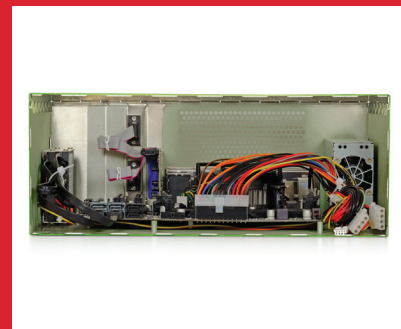

Active cooling from front to back.

SOLUTION

Two 80 mm fan kits installed to front panel and perforations in the rear make front to back fan cooling possible.

Brackets for two hard disk drives on the side and also integration of a dual slot PCI card (RS-232-serial interface). 300 W ATX 1 U power supply and illuminated power switch additionally configured.

Project details

Location	Germany
Type of system	Interscale for Micro ATX
Technology	Protection, fan cooling and electronic components for Micro ATX
Product scope	Prototype
Date/Time frame	Q1/2016
Contract scope	Prototype
