

FOR CUSTOM PCB

REQUIREMENT

Test a measurement application which combines standard PCB's and custom solutions on one housing (Cassette PRO).

CHALLENGE

Assemble standard PCB's 160mm and one only 100mm long custom PCB in one unit.

SOLUTION

Customer wants to combine standard 160mm long PCB's and shorter custom PCB in one unit. Adapter in the groove of the profile side panel was easily done.

Project Details

Location	Germany
Type of system	Electronic application (Test & Measurement)
Technology	Standard Cassette IEC 60297-3-101...103
Product scope	Series
Date/Time frame	05 / 2016
Contract scope	> 500 boxes per year
